

ADAPTED FROM STEVEN'S WORK | 2025-2026

Safeguarding improvement plan

A condensed, anonymised presentation of selected work recorded in Steven's safeguarding development roadmap. This is a retrospective improvement record, not the original document.

Priority	Action taken	Evidence
Clearer reporting	Opened direct staff reporting after training and monitored recording quality.	Staff access, guidance and recorded follow-up.
Consistent support planning	Developed welfare plans and risk assessments, allocated owners and introduced review trackers.	Live plan register, review dates and assigned owners.
Shared oversight	Created a central space for meeting minutes, agendas, plans and linked documents.	Meeting records and traceable follow-up.

The complete working approach connects each priority to an owner, timescale, evidence and review. School, staff and pupil identifiers have been removed.
