

ADAPTED FROM STEVEN'S WORK | 2025-2026

Making the work visible

Selected elements from the evidence map within Steven's safeguarding development roadmap, condensed and anonymised for public display.

Evidence area	What the record connects
Staff confidence	Training, guidance and low-level concern records: connecting reporting practice with review and follow-up.
Welfare planning	Plans, risk assessments, trackers and review notes: connecting identified needs with ownership and review.
Student voice	Wellbeing information, follow-up records and staff training: connecting pupil feedback with pastoral action.
Impact and learning	Case-study structure and supporting evidence: connecting the concern, response, review and outcome.

An evidence map helps leaders locate supporting material and identify gaps. It is a working tool, not an inspection judgement.
